

Asycube Clean 230

Asyri's Asycube Clean 230 is the first flexible feeding system tailored for cleanroom environments, combining technical innovation, ease of cleaning, and full GMP compliance even for small-series or rare disease applications.

Technical description

Vibrating platform dimensions

Diagonal: 230 mm

General dimensions

Width: 177.5 mm, length: 237.5 mm

Compatible part sizes

5 to 40 mm

Ingress protection

IP65 (per IEC 60529)

WGMP design compliance

According to ISO 14644-14 and
EU GMP Annex 1

Cleanroom classification

ISO Class 5 (per ISO 14644-14)

Benefits

- **ISO 5 cleanroom compatible**
Operate confidently in controlled environments with minimal contamination risk.
- **IP65 waterproof & easy to clean**
Smooth surfaces, chemical resistance, and H_2O_2 compatibility ensure fast and thorough cleaning.
- **GMP Annex 1 compliant**
Meets the strictest pharmaceutical manufacturing standards.
- **Fits into an 190 RTP**
Seamless integration into isolators and sterile production lines.
- **Made with FDA-compliant materials**
Safe for indirect contact in pharma — reliability you can trust.
